

# COVID-19

## What is the coronavirus?

This illustration, created at the Centers for Disease Control and Prevention, reveals ultrastructural morphology exhibited by coronaviruses. Note the spikes that adorn the outer surface of the virus, which impart the look of a corona surrounding the virion, when viewed electron microscopically. A novel coronavirus was identified as the cause of an outbreak of respiratory illness first detected in Wuhan, China in 2019. The illness caused by this virus has been named coronavirus disease 2019 (COVID-19).

As of the morning of March 29, the Mississippi State Department of Health reported 95 new cases of COVID-19 in the state, with one new death. Mississippi's total of coronavirus cases is now 758, with 14 deaths. There are 71 cases in DeSoto County, where there has been 1 coronavirus death. US coronavirus cases have topped 135,000.

## DO THE FIVE
