RECORD VOTER TURNOUT
More US citizens voted in the 2020 election than any other election in American history.

VOTING DURING COVID-19
The 2020 election took place amidst a global pandemic, leading to many Americans choosing to vote early or by mail.

MAIL-IN VOTING
46% of voters casted their ballot by absentee or mail-in this year, with 32% of Trump supporters opting to vote by mail and 58% of Biden voters. With this year's surplus of mail in votes, it took some states weeks to diligently certify votes.
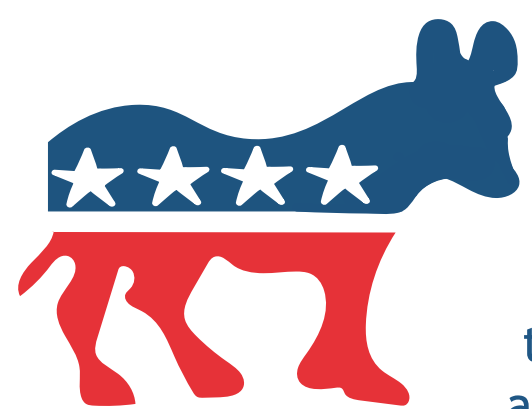

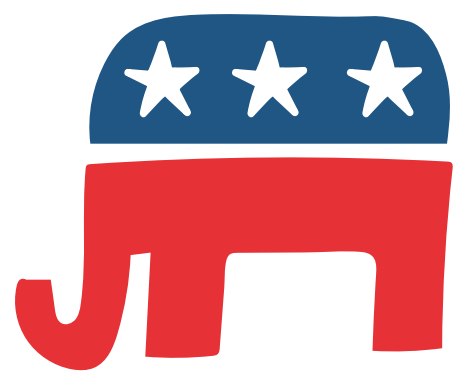

The Democratic Party will retain control of the US House of Representatives, gaining 3 seats and losing 12.

Georgia's current Republican Senate seats have been forced into runoff races against Democrats which will determine if the Senate will flip after a six-year Republican hold.
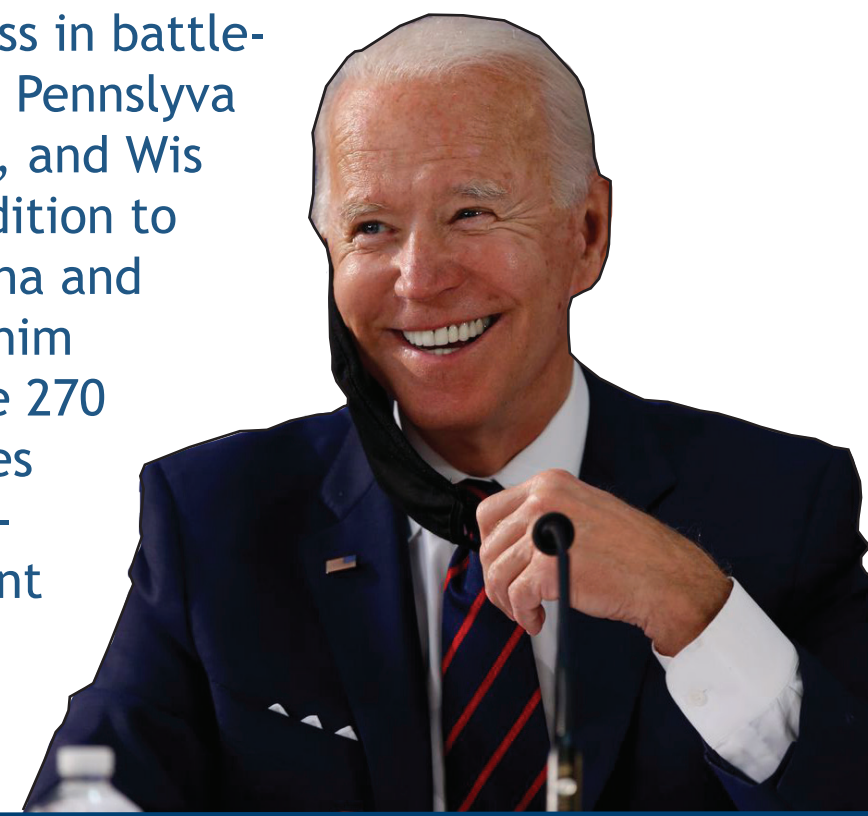

PRESIDENT-ELECT JOE BIDEN

Biden's success in battleground states Pennslyvania, Michigan, and Wisconsin, in addition to flipping Arizona and Georgia, led him to surpass the 270 electoral votes needed to become President of the United States.

MAKING HISTORY
Kamala Harris made history by becoming the first woman, and the first black and Asian American, to be vice-president elect.
