

POWERING THE FUTURE

● staff writer noah eiland

Electric cars have been proven to be better for the environment in the long run, but despite this it is still quite rare to see one on the road.

99%+

OF ALL VEHICLES SOLD ARE GAS/HYBRID

(IN U.S.)

4.8X MORE

EFFICIENT AT TRAVELLING A MILE

11,435LBS

OF CO2 RELEASED EVERY YEAR BY GAS CARS

\$632

LESS SPENT PER YEAR BY EV OWNERS

EV'S ARE \$12,000+

MORE EXPENSIVE THAN GAS VEHICLES
